ET710 Assignment 5

Apply CSS layout to create one web page as below.

Create a clock as below using provided images:

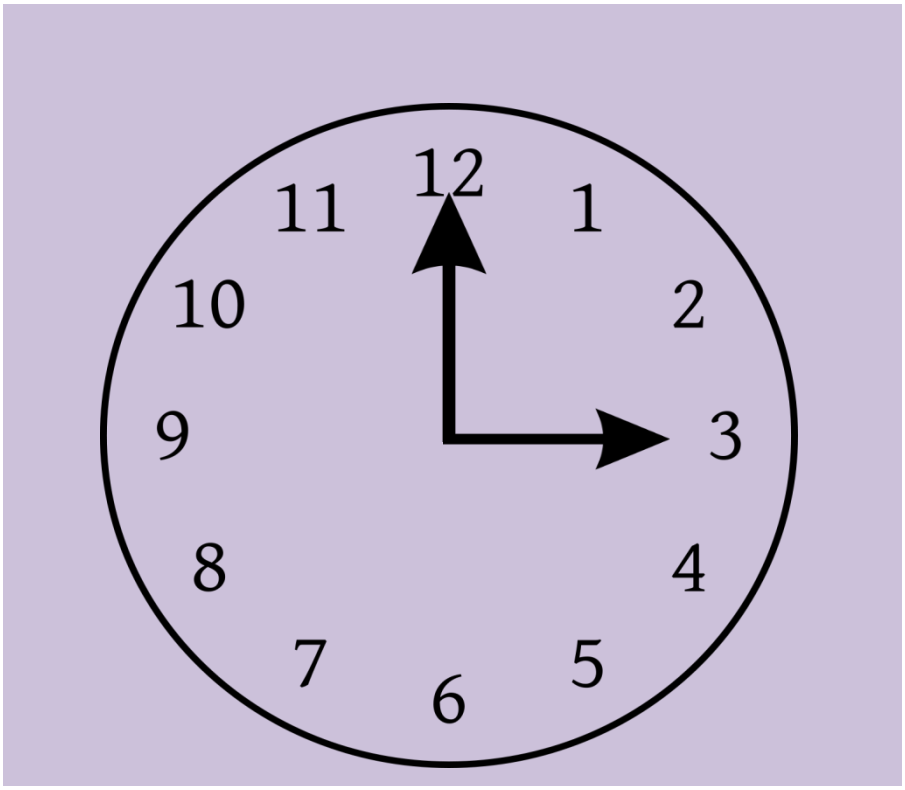

Requirements:

- The clock image block has the clock image set as a background.
- The two clock hands are placed inside the parent level image block
- Try to use the same clock hand image for two clock hands.
- Try to add a background color (such as light purple as below) or a image to the rectangle box.

Hint:

1. You might also try to place the clock block inside another and give the highest level of a background color (such as light purple as below) or a background image in Version 2.
2. Apply CSS property - position.

Version 1:

Version 2 (optional) example:
